

Figure 14. The above graphic illustrates the 100 year trend from 1900 to 1999 for the historical reconstruction produced as part of the Coupled Model Intercomparison project --Phase 5 or CMIP 5. Results for bcc-csm1-1 model is shown in the upper panel and the difference with Berkeley Earth Land Temperature is shown in the lower panel. Bcc-csm1-1 is a product of a product of Beijing Climate Center, China Meteorological Administration. The lower panel depicts the difference in trends between Bcc-csm1-1 and Berkeley Earth Land Temperatures. The Root Mean Square is calculated at the grid level.
