

Figure 37. The above graphic illustrates the 100 year trend from 1900 to 1999 for the historical reconstruction produced as part of the Coupled Model Intercomparison project --Phase 5 or CMIP 5. Results for HadGEM2-AO model is shown in the upper panel and the difference with Berkeley Earth Land Temperature is shown in the lower panel. HadGEM2-AO is a product of National Institute of Meteorological Research/Korea Meteorological Administration. The lower panel depicts the difference in trends between HadGEM2-AO and Berkeley Earth Land Temperatures. The Root Mean Square is calculated at the grid level.
